

Please do not change the Indiana no call law. It has made such a difference in our family's evenings at home. We no longer have the annoying telephone calls when we sit down for dinner as a family, we are able to enjoy ourselves without the hassel of telemarketers anymore. This law has been a blessing to our family, so please leave it alone and do not change anything that would allow annoying telemarketers to call again. Thank you, Tricia Helfert
